Subject: Recent Amendments to Education Law §2801-a Regarding Pandemic Planning

On September 7, 2020, Governor Cuomo signed into law Chapter 168 of the Laws of 2020 that requires public employers, including public school districts, to adopt a continuation of operations plan in the event that the governor declares a public health emergency involving communicable disease. The legislation (S.8617 -B/ A.10832) amends subdivision 2 of section [2801-a of New York Education Law](#) to require that District Safety Plans include protocols for responding to a declared public health emergency involving a communicable disease that are “substantially consistent” with the provisions of section 27-c of the Labor Law.

The effective date of the law is September 7, 2020, with operation plans required to be established and functional within 30 days of that date. However, the Governor’s Approval Memo indicates there will be a technical chapter amendment to this bill which will push out the date the plans are due to April 1, 2021. Note that there may be additional changes added to the language at that time.

For your information, a summary of the requirements is provided below. District officials may include any relevant content developed for the District Re-Opening Plan in the Public Health Emergency Continuation of Operations Plan. District officials should consult with their PE
